Certificate of Attendence

RimA Summer School

Towards Walking Robots in Domestic Environments

This is to certify that

Daniel Alcides Saromo Mori

has attended the RimA Summer School 2026
held on August 3 to 7, 2026 in Karlsruhe (Germany).

Content	Total Workload in Hours
Lectures and Hands-On Sessions During the program, the participant engaged in lectures, discussions, and hands-on sessions covering: – Theoretical background on walking robots, including bio-inspiration, kinematics, gaits, and stability – 3D-Navigation for mobile walking robots with VDB Mapping and NavPi – Task modelling and coordination using Behaviour Trees – Applied Machine Learning for perception and mobile manipulation – Advanced ROS 2 programming within a complex software stack – Participation in a robotics challenge with tasks in a domestic environment	**45**
